	Examiner Kaveh Abrishamkar	Art Unit 2131	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-19, and 32-48 drawn to a method of securely sending and receiving facsimile communications, classified in class 380, subclass 243 i.e. Facsimile cryptography: wherein subject matter further comprises an optically scanned static picture represented by an electrical signal which has been made unintelligible.
 - II. Claims 20-32 drawn to an apparatus which is used to provide communication between a network, a facsimile machine, and a mobile device, classified in class 710, subclass 72 i.e. Application-specific peripheral adapting: wherein subject matter further comprises means to make certain peripherals compatible with different systems or other computing devices.
2. Inventions I, and II are related as subcombinations disclosed as useable together in a single combination. The subcombinations are distinct from each other if they are shown separately useable. In the instant case, invention I has separate utility such as a method for sending and receiving encrypted facsimile communications, classified in a different Class/Subclass. Invention II has a separate utility such as an apparatus to

enable communications between different devices and network systems, classified in a different Class/Subclass. See MPEP 806.05(d).

3. The inventions are distinct, each from the other, because of the following reasons:

(a) These inventions have acquired a separate status in the art as shown by their different classifications.

(b) The search required for each Group is different and not co-extensive for examination purposes.

For example, the searches for the two inventions would be not be co-extensive because these Groups would require different searches on PTO's classification class and subclass as follows:

The Group I search (1-19, and 32-48) would require use of search class 380, subclass 243 (not required for the invention II).

The Group II search (claims 20-31) would require use of search class 710, subclass 72 (not required for invention I).

For the reasons given above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement in order to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (h). A telephone call was made to attorney Brian Lemm, on 02/09/2005 to request an oral election to the above restriction, but did not result in an election being made.

Conclusion

A shortened statutory period for reply is set to expire THIRTY DAYS from the mailing date of this communication. Failure to respond within the period of response will cause the application to become abandoned (35 U.S.C. Sect. 133). Extensions of time may be obtained under the provisions of 37 CFR 1.136(A).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaveh Abrishamkar whose telephone number is 703-305-8892. The examiner can normally be reached on Monday thru Friday 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on 703-305-9648. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
